

Professional Cleaning Solutions

Innovation from the Floor to the Sky

IPC Eagle

Innovative Design, Better Choices.

IPC Eagle is a leading manufacturer of cleaning equipment and tools throughout the world. IPC is a group of 16 specialized companies focused in cleaning products. Each company is relatively small in scale to innovate quickly but with the resources of a large company. We are committed to providing our customers with quality cleaning products and support of our full line of cleaning equipment which includes automatic scrubbers, vacuum sweepers, professional and industrial vacuums, pure water cleaning systems, window cleaning tools, screen washers, burnishers, extractors, pressure washers, microfiber mopping systems and more.

IPC Eagle Means More Than Equipment

We provide an array of programs and services to help ensure the successful operation of your maintenance program. Our promise to our customers is total support.

Did you know that we are one of the largest cleaning equipment manufacturers in the world?

- Odds are you already use or own our equipment.
- We developed our company by designing and building cleaning equipment for virtually all of the cleaning equipment manufactures in the industry under private label.
- We have changed our strategy to be a branded cleaning equipment manufacture under the IPC Brand.
- IPC stands for Integrated Professional Cleaning and we produce cleaning equipment and tools for virtually every surface from the floor to the sky, inside and out.

The IPC Eagle website is a great resource at your fingertips!

Microfiber Cleaning Systems

www.facebook.com/IPC Eagle

<http://twitter.com/IPC Eagle>

www.youtube.com/IPCEagleCo

The Ultimate **Green** Cleaning Machines

The ECS™ is the only High Speed Automatic Scrubber on the market!

It's designed to run at High Speed's (600 RPM) for cleaning with Microfiber and Diamond Pads but can also be used at a lower speed (180 RPM) allowing you to use the ECS™ as a traditional automatic scrubber.

This versatile machine can:

- **Reduce Water Consumption**
- **Reduce Labor Time**
- **Reduce or Eliminate Chemical Consumption**
- **Reduce Frequent Burnishing**
- **Clean and Polish**

ECS™ High Speed Microfiber Scrubbing System

They have the green cleaning benefits of water, chemical, energy and noise reduction but also provide all of the additional benefits of our Clean Time Scrubbers and more. It is like two scrubbers in one, microfiber or traditional scrub. High Speed Microfiber scrubbing system uses less water, chemicals and time.

Dump and refills are a thing of the past!

- Reduce Water Consumption 80%-90%
- Reduce Chemical Consumption up to 80%-90%
- Reduce Labor Time up to 30-50%

Equipped with 2 operating modes

- High Speed Micro Scrub and Traditional Scrub (CT15 only runs in 600RPM Mode)

Patented Microfiber Scrubbing System -

Designed to deliver the performance advantages of microfiber

- **High Speed** (600 RPM) over three times faster than traditional scrubbers
- **Low Pad Pressure** allowing high oxygenation of fibers
- **Limited Water** is needed to allow microfiber to work effectively.

ECS™ High Speed Diamond Pad Scrubbing System

IPC Eagle's ECS™ high speed automatic scrubbers are uniquely designed to clean and polish sealed and non-sealed floors in just one process. This chemical free mechanical cleaning approach physically removes the soil as it polishes the surface drastically cutting the cost of labor and chemicals while eliminating frequent burnishing.

- Cleans and polishes floors in just one process
- Provides a high gloss shine on VCT and other sealed floors without burnishing.
- Provides high gloss shine on unsealed floors including polished concrete, terrazzo, natural stone, vinyl and epoxy floors
- Chemicals are eliminated in this mechanical cleaning approach
- Our High Speed (600 RPM) ECS™ Machines are over three times faster than traditional scrubbers allowing you to get the high gloss shine you expect

Benefits of using the ECS™ High Speed Diamond Pads

- 600 RPM provides a high gloss shine in half the time
- Extends the life of the floor finish by 50%
- Drastically reduces cost by increasing the life of the floor, reducing stripping and re-coating and reducing the amount of pad replacements
- Eliminate frequent burnishing
- Eco-Friendly, mechanically cleans without chemicals
- Provides consistently clean and high gloss floors

ECS™ Automatic Scrubbers

CT15 ECS™

The **CT15 ECS™** High Speed Microfiber scrubbing system uses less water, chemicals, and due to its compact size offers you exceptional productivity in tight areas.

- **4 gallon solution, 5 gallon recovery**
- On-board charger

CT15 ECS™
14" Brush Drive
4/5 Gallon

CT40 ECS™

The **CT40 ECS™** High Speed Microfiber scrubbing system uses less water, chemicals and time.

- **10 gallon solution, 13 gallon recovery**
- On-board charger
- Optional "Chem Dose" system

CT40 ECS™
20" Brush & Traction Drive
(shown with optional Chem Dose)
10/13 Gallon

CT70 ECS™

The **CT70 ECS™** Micro Scrub system offers incredible scrubbing performance and productivity. Uses a fraction of the water and chemicals of traditional scrubbers and cleans continually without dumping and refilling.

- **19 gallon solution, 20 gallon recovery**
- On-board charger
- Optional "Chem Dose" system

CT70 ECS™
28" Traction Drive
19/20 Gallon

CT110 ECS™

The **CT110 ECS™** offers incredible productivity. Cleans continually without dumping and refilling.

- **29 gallon solution, 30 gallon recovery**
- Optional On-board charger
- Optional "Chem Dose" system
- Squeegee automatically lifts in reverse

CT110 ECS™
32" Rider
29/30 Gallon

Automatic Scrubbers

“Get Right Sized” Cleantime Automatic Scrubbers are specifically designed to meet the productivity needs of everyday cleaning and not the norms of the equipment industry. With a wide variety of automatic scrubbers available, IPC Eagle will have the “Right Size” scrubber for any job. (See “Get Right Sized” brochure for more info).

SLS

SLS (Self Leveling System) uniform scrubbing guaranteed by the spring-activated floating head, which adapts instantly to even the most irregular surfaces.

CWS

CWS (Central Weight System) balances the weight of the machine constantly on its center, allowing for increased maneuverability and productivity.

AFS

AFS (Anti-Foam System) uses air flow to protect the vacuum motor against foam.

Spin-on/Spin-off Brush Pad
Automatic brush attachment and release system (without hands or tools).

Reduce your cleaning costs with Chem-Dose

Chem-Dose is an innovative system which enables Cleantime automatic scrubbers to handle the detergent separately from the water tank. The system can be activated or deactivated at any moment and enables the detergent to be mixed precisely in percentages from 0.5% to 10% (0.5-12 ounces per gallon) with the water for the CT110 and from 0.5% to 3% (0.5-4 ounces per gallon) with water for the CT40, CT70 and CT90 walk behind models.

High Precision Mixing System:

- Reduces detergent use to a minimum
- Pumps the detergent into the water to precisely mix the solution
- Eliminates chemical build-up in tank and solution lines
- Works with the water regulation system of the machines to save water and detergent

Accessory available on the following models:

CT40 CT70 CT90 CT110 CT230

Automatic Scrubbers

CT15 (battery and electric)

The **CT15** is small in size but provides high productivity and long battery run-times. It is perfect for areas where traditional auto-scrubbers are just too big.

- **4 gallon solution, 5 gallon recovery**
- On-board charger (Battery Only)
- Parabolic Squeegee for tight spaces
- Easy to use control panel
- Removable tank

CT15
14" Brush Drive
4/5 Gallon

CT30
18" Brush Drive
8/9 Gallon

CT30

The **CT30** offers all the benefits of the CT15 but with a 18" cleaning path and 8 gallon tank.

- **8 gallon solution, 9 gallon recovery**
- On-board charger
- Parabolic Squeegee for tight spaces

CT45

The **CT45** is a unique machine in its category with an innovative design that ensures maximum productivity within the most compact size. The newly designed handle is easy to use and very maneuverable. It's ergonomic, allows to operator to adjust the height accordingly, and includes an easy to use control panel.

- **11 gallon solution, 12 gallon recovery**
- Height-adjustable handle for comfort
- V Shaped Heavy Duty Squeegee

CT45
20" Brush Drive
11/12 Gallon

Automatic Scrubbers

CT40

The **CT40** comes in an incredibly compact size with large tank capacity, and ease of use will offer high productivity and performance with very little training.

- **10 gallon solution, 13 gallon recovery**
- On-board charger
- Self-leveling brush head
- Now includes variable adjusted solution flow
- V Shaped Heavy Duty Squeegee

CT40
20" Brush &
Traction Drive
10/13 Gallon

CT70

The **CT70** provides the productivity of scrubbers twice its size in a very small compact design. The simplicity, ease of use, and maneuverability of the CT70 is very unique to scrubbers in this range. Even with a very compact size, the CT70 will clean up to 50,000 square feet in one charge.

- **19 gallon solution, 20 gallon recovery**
- On-board charger
- Scrubbing width 20", 24", 28"
- Brush and traction drive
- Superior balance and maneuverability
- Now includes variable adjusted solution flow

CT70
24" & 28"
Traction Drive
19/20 Gallon

CT70
20" Brush & Traction Drive
19/20 Gallon

CT90

The **CT90** is designed to clean large areas fast but maintain the maneuverability and ease of use of the other Cleantime automatic scrubbers. Even with a very compact size, the CT90 will clean up to 65,000 square feet in one charge.

- **24 gallon solution, 25 gallon recovery**
- Optional on-board charger
- Scrubbing width 28" and 32"
- Battery operated
- Floating brush system
- Exclusive V squeegee
- Traction drive
- Now includes variable adjusted solution flow

CT90
28 & 32" Traction Drive
24/25 Gallon

Automatic Scrubbers

CT100

The **CT100** is available in 28" and 32" scrubbing widths. Through innovation, the CT100 offers high productivity in a compact design, superior maneuverability and outstanding cleaning performance.

- **26 gallon solution, 29 gallon recovery**
- Scrubbing width 28" and 32"
- Curved squeegee
- Compact design
- Self-propelled forward and reverse

CT100
28 & 32" Traction Drive
26/29 Gallon

CT70 Rider

Slightly bigger than a small walk-behind, the **CT70 Rider** can offer high production cleaning for any area. This unique rider offers the maneuverability and visibility of a stand up machine but with the ergonomics of a rider.

- **19 gallon solution, 20 gallon recovery**
- On-board charger
- Squeegee lifts up when in reverse
- Strong differential gear drive to climb slopes
- Goes through doorways and on elevators with ease

CT70 Rider
24 & 28" Traction Drive
19/20 Gallon

CT110

The **CT 110** is an incredibly small rider scrubber but with a 29/32 gallon tank offers much higher productivity than other rider scrubbers in its range. Designed to offer high productivity and performance with very little training.

- **29 gallon solution, 32 gallon recovery**
- Optional on-board charger
- Scrubbing width 28" and 32"
- Three pre-programmed work settings
- Automatic solution and speed reduction on turns
- Self-leveling brush system
- Exclusive squeegee system
- Squeegee lifts-up in reverse

CT110 Rider
28 & 32" Traction Drive
29/32 Gallon

Automatic Scrubbers

CT160

The **CT160** scrubber is designed for commercial and warehouse cleaning applications. It is one of the easiest riders to use on the market. Even the brushes are connected and disconnected automatically.

- **39 gallon solution, 45 gallon recovery**
- Optional on-board charger
- Scrubbing width 28", 32", 36" and 30" cylindrical
- 5 hour run time
- Ultra-dry squeegee system
- SLS - Self leveling system

The CT160 Cylindrical is equipped with 30" dual counter rotating brushes to sweep, wash, and dry in just one pass. Ideal for grouted tile and warehouse floors.

CT160 Rider
28, 32, 36" & 30" cylindrical
Traction Drive
39/45 Gallon

CT160
BT75 R Cylindrical Brush,
Scrub & Sweep Version
39/45 Gallon

CT230

The **CT230** is designed for commercial as well as industrial applications. The 36 volt battery system offers long run times for high-production large-area cleaning.

- **54 gallon solution, 59 gallon recovery**
- Optional on-board charger
- Scrubbing width 42" disk pads or brushes
- AFS - Anti-foam system
- 4.5 hour run time
- Ultra-dry squeegee system
- Optional "Chem-Dose" system

CT230 Rider
42" Traction Drive
54/59 Gallon

Vacuum Sweepers

SmartVac™

The **SmartVac™** is in a category all of its own and will change how floor surfaces are maintained. The battery-operated **SmartVac™** will vacuum carpet and sweep floors at incredible productivity rates, automatically adjusting to any surface, and even cleans its own filter. Throw away your old uprights and see a return on investment in as little as a few months.

- 24" - 32" battery vacuum and sweeper
- Multi-surface vacuum and sweeper
- Cleans up to 41,000 sq. ft./hr.
- Battery operated up to 2.5 hours
- Easy to use — just choose the cleaning mode
- Highly maneuverable
- Picks up large debris with no worries
- Digital hour meter to measure the productivity
- Adjustable handle for easy transport and storage
- SLS - Self Leveling System automatically adjusts to any surface
- Ultra quiet at 55 dBA can be used day or night

SmartVac™ 464
24" Battery Vacuum Sweeper

Easy to use with two preset work programs and a display with self-diagnostic data, battery charge status, and hour meter.

Vacuum shutoff for use when sweeping wet areas.

On-board battery charger. Enables the battery to be charged anywhere.

Self-cleaning filter with cleaning frequency linked to the selected work program.

SmartVac™ 664
32" Battery Vacuum Sweeper

The brush automatically adjusts to any type of carpet or hard surface floors.

Vacuum Sweepers

512/712 Vacuum Sweepers

The **512/712 Vacuum Sweepers** represent a revolution in the vacuum sweeping of carpets and hard surface floors. With their built-in battery chargers, large debris littergates, and battery run times of up to 4.5 hours, they bring a new level of productivity to floor maintenance.

- Cleaning rates up to 27,000-35,000 sq. ft./hr.
- Cleaning widths from 28" - 36"
- Built-in battery charger "Smarter Charger"
- From carpet to hard surface without adjustment
- Exceptional dry soil removal
- 5 micron dust control
- Easy to operate
- Robotically welded for maximum quality
- Electrical monitoring system will extend battery life
- High-efficiency filtration available

512
28" Cleaning Width

712
36" Cleaning Width

512R
28" Cleaning Width

512R Vacuum Sweepers

- Cleaning rate up to 40,000 sq. ft./hr.
- Cleaning width of 28"
- Built-in battery charger "Smarter Charger"
- From carpet to hard surface without adjustment
- Huge hopper capacity
- Heavy-duty chassis
- Easy to operate
- Robotically welded for maximum quality
- Dust filter replacement without tools

1050 Sweeper (Battery Operated)

The **1050 Sweeper** is the perfect step up to higher productivity from walk behind units. Small enough to go through a 32" opening but large enough to clean a 39" cleaning path.

- Up to 55,000 sq. ft./hr.
- 39" cleaning width
- 3 programmable cleaning modes
- Patented self-leveling main broom
- Patented self-cleaning filters

1050
39" Cleaning Width

Vacuum Sweepers

1202 Sweeper (Battery Operated)

The **1202 Sweeper** is a compact and maneuverable ride-on sweeper with a choice of three work programs for efficient cleaning of large surfaces.

- Cleans 68,000 sq. ft./hr.
- 48" cleaning path
- Climbs to 16% incline
- 3 programmable cleaning modes
- Patented self-leveling system
- Patented NDC (No Debris in Curve)
- Automatic main brush lift in reverse

1202
48" Cleaning Width

1404 Sweeper (Battery Operated)

The **1404 Sweeper** features a wide range of standard accessories and has the choice of three different brushing methods, providing an answer for even the most difficult cleaning situations.

- Cleans 82,000 sq. ft./hr.
- 58" cleaning path
- Climbs to 20% incline
- 3 programmable cleaning modes
- Patented self-leveling system
- Patented NDC (No Debris in Curve)
- Automatic main brush lift in reverse

1404
58" Cleaning Width

510M Manual Sweeper

The **510M Manual Sweeper** is designed to be the easiest-to-use manual sweeper on the market. With a two-stage hopper system, it provides a level of dust control unusual in a manual sweeper. The steel frame provides long-term durability.

- Cleaning productivity up to 27,000 sq. ft./hr.
- 28" cleaning path
- One-hand operation
- Superior dust control
- Lightweight
- Large hopper capacity
- Heavy duty chassis made of steel

510M
28" Cleaning Width

Cylindrical Scrubbers and Floor Machines

T15 Cylindrical Scrubbers

The **T15** have been specifically designed to give unequaled performance in maintaining and restoring grouted and textured floors.

- Thoroughly deep cleans porous and textured surfaces
- Restores as it cleans
- Scrubs and dries in one pass in either direction
- Cylindrical design outperforms traditional methods
- Safe and easy to use, even in restoration

T15
4 Gallons
15" Cylindrical

Low Speed

These **FM17/FM20** floor machines were designed to handle everyday use and abuse. The rotationally molded polyethylene base will absorb impacts and maintain a good appearance for a long period of time. The glass-filled switch box and the trigger handle have incredible strength.

- Heavy-duty, 1.5 HP motor; dual capacitor
- Stainless Steel base
- 175 RPM
- Steel, triple planetary gears
- 50 ft., heavy-duty yellow ST cord
- Chrome plated steel handle
- Quick and easy handle adjustment

FM17/FM20
17" & 20"

High Speed

The **B1500** high-speed burnisher will provide the high-gloss results that are expected in today's floors. Equipped with a Flex pad driver at 2000 RPM, the B1500 will provide high productivity and optimum performance.

- 20" Belt Drive 1500 RPM burnisher
- Stainless Steel brush cover
- Multi-V belt drive reduces load on bearings and extends motor life
- 19" flex pad driver for increased productivity
- Easy to release cord wrap by just lowering the handle
- 75 ft., heavy-duty yellow ST cord
- Chrome plated steel handle
- Rear transport wheels for easy turning and mobility

B1500
20" Belt Drive

Eagle Pro Propane Burnisher

The Eagle Pro line of propane burnishers are designed with the perfect balance of performance and productivity. The offset body allows for easy access under racks and into corners. The unique pad angle eliminates side torque and increases pad pressure.

- 20 HP Kawasaki engines
- Sizes include 21", 24", 27" and 30" stripper
- UL and CGA approved, Meets CARB and EPA emissions standards

Eagle Pro
21", 24" & 27"

Fastract™ Extractors

SC4/SC7/SC12

12", 17", 19" Cleaning Widths

These 4, 7 and 12 gallon self-contained extractors offer portability, ease of operation, and performance. With up to a 19" wide cleaning path, high-speed brush, and dual vacuum motors, the **SC7** and **SC12** can clean and dry carpets fast!

- Tank capacity: 4, 7 and 12 gallon models
- Cleaning paths 19" (SC12), 17" (SC7) and 12" (SC4)
- Patented, 4-wheel design for excellent balance and turning radius on the SC7 and SC12
- Self-adjusting, self-leveling brush eliminates manual adjustment
- Dual buckets with the SC12 for safe lifting and dumping of solution

Job Extractor

3 Gallon Fresh Water Tank

The **Job** is the perfect tool for cleaning and spotting of carpet, upholstery and hard surface floors.

- For carpet, upholstery and hard surfaces
- Powerful 1.5 HP vacuum motor
- Polyethylene for durability
- 6-caster design for easy mobility
- Comes equipped with hose and tools for carpet, upholstery and hard surfaces
- 3-gallon fresh water tank
- Locking hose-in-hose with swivel cuff
- 9-gallon recovery tank

BX2

2 Gallon Tank Capacity

The only small extractor truly designed to be a spotter. With a built-in transport handle, molded-in holders for spray bottles, and a place to wrap the cord and hose, it is ready to clean those spots whenever you are!

- At 17 pounds, it is compact and maneuverable
- Built-in handle and 6" wheels makes it easy to transport
- Built-in spray bottle holders transform the machine into a spotting system
- Only upright-mounted vacuum motor on the market to ensure longer motor life

BX12/BX12 w/heat

12 Gallon Tank Capacity

The **BX12** is designed to provide professional cleaning performance. With a standard 150 PSI pump, dual vacuums, and an optional in-line heater, the BX12 has the power to reclaim the dirtiest of carpets.

- Powerful, 150 PSI pump and dual vacuum motors with 150" water lift provides for optimum cleaning
- Available with or without built-in heater
- All motors are mounted to a metal baseplate to guarantee long-term durability
- All fittings—such as the strain relief, quick disconnect, etc.—are fully protected, eliminating breakage during transport, storage and operation
- Intercooler cools the motor compartment, extending motor life

Professional & Industrial Vacuums

EVO

4 Gallon Canister Wet/Dry Vacuum
Quiet, Powerful Multipurpose

Applications:

For everyday vacuuming of flooring, included carpeted areas. Can also be used to pick up wet spill when needed. Great to keep handy when the need arises to clean up common spills and debris.

Hospital AB

6 Gallon Antibacterial Dry Canister Vacuum
with HEPA Critical

Applications:

Environments where keeping dust out of the air and in the vacuum is a requirement. This vacuum is specifically designed for vacuuming flooring, including carpet in hospitals and medical facilities.

300 Series

12 Gallon Wet/Dry and HEPA Critical Filtration

Applications:

Rugged and powerful polyethylene wet/dry vacuum available in multiple configurations to fit the application.

315P, 315P-H

400 Series

24 Gallon Polyethylene or 17 Gallon Chrome Steel, Wet/Dry and HEPA Critical

Available in 1, 2 and 3 vacuum motors.

Applications:

General purpose vacuum for wet or dry applications including HEPA critical filtration. Can be used for general cleaning or to collect dust from grinding type tools. Commonly used in schools, manufacturing, office and construction. Excellent choice for cleaning and construction contractors for a general purpose vacuum and critical dust control.

415P, 429P, 430P,
415S, 429S

DustMax

Compact and Transportable Large Capacity Industrial Vacuum with Longopac or Single Bag

Available in single motor or 3 Flow.

Applications:

Large capacity transportable industrial vacuum for the collection of large amounts of debris. Specific markets include concrete and stone grinding, wood working and general contract.

315DM,
3FlowDM

400 Series Optional Front Mount Squeegee

Applications:

Available for 400 Series models. Used for recovering floor stripper and high volume liquids.

iClean

Continuous Run Heavy Duty Industrial Vacuum with Longopac

Automatic Filter Cleaning

Applications:

For continuous run applications as part of manufacturing, cutting or grinding.

DustPro

Large Capacity industrial vacuum with split tank or single bag

Available in 2 & 3 motor or 3 Flow

Applications:

Large capacity dry vacuum for construction, manufacturing and situations where large amounts of debris needs to be collected including wood working and concrete

429DP, 430DP,
3FLOWDP

Professional & Industrial Vacuums

Planet

Large Capacity 3 Motor or Continuous Duty Industrial Vacuum with Optimum Filter Cleaning system

Applications:

Large capacity and continuous duty vacuum for manufacturing and situations where large amounts of debris needs to be collected including wood working and concrete grinding. Available with tandem tanks or drop down tank.

Barrel Vac

Vacuum Head and Adaptor for 55 Gallon Drum
Available in 1, 2 and 3 motors.

Applications:

Convert a 55 gallon drum into a large capacity wet/dry vacuum for manufacturing, construction or situations where large amounts of debris needs to be collected.

Portable Air Mover

Applications:

Adjustable to four different positions for drying carpets, furniture, curtains, ceilings, ANYTHING!

Backpack Vacuum

Increase productivity, mobility and convenience by taking the vacuum off the floor

Applications:

General purpose backpack vacuum for all cleaning environments. Applications include education, contractors, healthcare and office buildings.

3 Flow Series

COMPLETELY AUTOMATIC FILTER CLEANING SYSTEM

Maintain full suction power and top performance without having to stop.

FILTERS THAT GUARANTEE A DUST FREE ENVIRONMENT

The filters are separated by plates to prevent the falling dust of the filter being cleaned from depositing on the other filters during use.

FILTERS ARE ALWAYS CLEAN

The Cyclic Filter Cleaning takes place every minute alternating making sure the filters always clean producing an effective vacuum.

During the cleaning process for example, A and B will have suction while C is reversing the airflow forcing it through the filter.

Available on 4 Models:

- DustPro
- Barrel Vac
- 400 Series
- DustMax

Window Cleaning Solutions

Ultra Pure

Pure Water Window Cleaning System

Modular Pure Water System

The modular system approach allows the Ultra Pure system to be used as a compact and portable system that is easily moved in and out of vehicles, up and down steps, and across any terrain. Both the Hydro Cart and HydroTube™ have the unique ability to produce a high volume of pure water on normal tap pressure. The possibilities are endless and the system can be upgraded at any time. They have a 4 stage filtration system which includes reverse osmosis, and deionization process to produce mineral free water providing for incredible cleaning action and spot free windows.

High Productivity – Up to 10 times faster than ladders

Safe – Clean safely from the ground

Effective – Cleans entire window, frame and other non porous surfaces (No dirty ledges)

Environmentally Friendly – does not use harsh chemicals and only uses a small amount of water

Windows stay cleaner longer – No chemical residue to attract and hold dirt

Fast ROI (Return of Investment)

Easy to use – Anyone can be the world's fastest window cleaner

Hydro Cart

The Hydro Cart is perfect for most applications but is available with electric, battery, or gas engine boost pump modules (or can be easily added later) to increase productivity in low water pressure areas or when two-pole cleaning is desired.

Includes 100' of industrial hose.

HydroTube™

- Lightest weight (28 lbs.) Portable RO/DI Cart
- Operates lying down
- Comes complete with a choice of a telescopic pole or sectional poles from 12'-35'
- On-board push button TDS meter
- Produces pure water at less than \$.03 per gallon
- Cleans up to 3 stories without a pump (Based on incoming tap pressure)
- Easy change filters require no tools

You have the option to upgrade your HydroTube™ with an Electric or Gas Module.

You don't have to rely on the tap pressure and can clean windows more than 3 stories.

Shown with electric module.

Hydro Cart - Battery

Battery Pump Module provides higher pure water flow in low pressure areas to maintain maximum productivity for up to two poles. **(Available with R0mote™ wireless control system)**

Hydro Cart - Electric

Electric Pump Module produces enough pure water to run two to three poles to increase productivity.

Hydro Cart - Gas

Gas Engine Pump Module produces enough pure water to run two to three poles to maximize the productivity.

Window Cleaning Solutions

HighRise™

Pure Water Window Cleaning System

The HighRise™ window cleaning system is the latest innovative product from IPC Eagle. This amazing machine offers a safe and effective way of cleaning multi-story buildings and can be customized to fit your specific site requirements. The HighRise™ provides many benefits to the building owner/management company as well as the operator.

- **Dramatic Labor Savings** – can do a months worth of work in one day
- **Safe** – is operated from the top of the building eliminating over-the-edge work
- **Effective** – cleans entire building, including window frames providing extended life of structure
- **Environmentally Friendly** – doesn't use harsh chemicals and uses a small amount of water
- **Fast ROI**

Hydro Station

Portable Pure Water Cleaning System

The Hydro Station is a compact and portable Pure Water Cleaning system. The Hydro Station has the unique ability to produce a high volume of pure water for multiple remote applications. This system includes a 4 stage filtration system which includes reverse osmosis, and deionization process to produce mineral free water providing incredible cleaning action and spot free windows.

Applications Include:

- Window Cleaning
- Solar Panels
- House & Wall Washing
- Mobile Car Washing
- Pressure Washing
- Soft Wash Roof Cleaning

Great for the following industries:

- School Districts
- Universities
- Municipalities
- Contractors
- Landscapers
- Facility Maintenance
- Car/RV/ATV/Motorcycle
- Boat Dealerships
- Police Stations
- Property Management

Screen Washer II

There is no faster way to clean a screen. Just hook it up to a garden hose and this incredible tool can clean both sides of a screen at once.

- Simple, Quick and easy to use
- Compact portable design for transport
- Chemical free, fresh water clean and flush
- Durable design, built to last
- Thoroughly cleans the entire screen and frame from both sides at the same time, virtually eliminating screen damage caused by traditional cleaning processes.

Speed Brush

Designed to glide on glass with less fatigue allowing you to clean longer, be more productive, clean faster all while still getting the great performance you expect.

Specifically engineered soft synthetic bristles "flare out" to glide on the window ensuring all corners and edges are cleaned without damaging window frames.

Window Cleaning Solutions

The Rubber is the key

For the last 30 years, Pulex has crafted its rubber from only pure natural rubber from just one single geographic area. The result is a perfect blade, every time! With 11 different handles in brass, stainless steel, aluminum or plastic, you will no doubt find the one that feels just right. And to make it even better, Pulex products are all interchangeable with the tools you use today.

IPC Pulex

Brass Squeegee

The brass squeegee is the classic tool used by window cleaners. The rubber blade is secured in the channel by two clips at either end, enabling you to adjust the tension of the rubber blade and keep it stiff at the ends.

Stainless Steel Handle Squeegee

The stainless steel squeegee, which has revolutionized the way in which professionals work, can be disassembled into three main components, the supporting channel, the rubber blade and the handle with a securing spring. The handle is versatile enough to be used as a scraper.

Alumax Squeegee

This extra-long squeegee comes with a high-impact aircraft-grade extruded aluminum alloy channel and a professional swivel handle.

Technolite Series

The New Technolite is designed as the most ergonomically correct window cleaning tool in the industry. Technolite combines the classic qualities of easy handling and smooth movement typical of all squeegees by IPC Pulex with new features that improve performance in all conditions. The ergonomic grip, made of a unique blended material makes it comfortable for any job. Technolite performs better and gives superior results. The Technolite Series includes a Squeegee, T-Bar and Scraper.

Aluminum Squeegee

The all-aluminum squeegee has been improved and enhanced for window cleaners seeking a lightweight tool that facilitates the continuous swirling S-movements the job requires.

Plastic Squeegee

IPC Pulex's top quality plastic squeegee, which is easy to use and relatively inexpensive is now used all over the world by window cleaners.

Window Cleaning Solutions

Stutzy Squeegee Handle

The Stutzy allows for quick replacement of the squeegee.

Window Washers and T-Bars

The sleeve by IPC Pulex stands out due to its high quality and the exceptional resistance of the acrylic microfibers. Tests have shown that in both the standard and abrasive versions the fibers maintain their features even after months of heavy-duty work. The nap is specially shaped and hemmed to form a woven fiber sleeve with high water retention plus a non-slip rubber back.

Microfiber Sleeve

The microfiber sleeve by IPC Pulex is a highly-efficient blue and white fabric that removes dirt effortlessly with a tiny amount of cleaning fluid.

Microtiger

Microtiger is IPC Pulex's newest microfiber sleeve for cleaning windows, the latest addition to the range of superior quality professional cleaning tools. This top-performance microfiber fabric, in its distinctive red-and-white coloring, is designed to remove dirt easily using a tiny amount of detergent, or even none at all. This is because the microfibers are a hundred times finer than a human hair and can penetrate right into the microscopic pores in an apparently flat, compact pane of glass, removing all dirt quickly and easily. The main innovation is the composition of the yarn: the red is the (soft) abrasive part and the white is the absorbent and degreasing part. This dual action is enhanced by a scrub pad on one end of the Microtiger to help remove hard, rough dirt.

Window Cleaning Solutions

Tubex Holster

For those who have to clean windows up on ladders or in a restricted space, there is nothing more convenient than having all your tools close at hand.

Buckets

The multi purpose rectangular bucket was designed mainly for window cleaning or floor waxing. Can be fitted with casters, single hooks, double hooks, or a stainless steel drain sieve. They come in four colors; Blue, Red, Green and Yellow with option of the matching bucket lid.

Mustik Floor Squeegees

Mustik floor squeegees by IPC Pulex are ideal for removing water and solid or damp dirt from any type of floor. Made of heavy duty mineral fiber reinforced plastic, they have a flexible rubber blade made of closed-cell foam rubber and a universal handle socket. Comes in three versions; Black - General Use, Red - Oils, White - Food Service.

Scrapers and Blades

IPC Pulex scrapers and blades are all equipped with a blade cover and are used on windows, floors and various other surfaces.

Sticker Rod

The retractable Sticker Rod by IPC Pulex is designed for picking up rubbish and waste and is indispensable for environmental cleaning. It avoids manual contact with everything picked up.

Nipper Reachers

The ideal way of picking up, positioning and removing items without the need for ladders. The reacher acts as an extension to the arm and is indispensable in a variety of situations – for cleaning public areas and gardens, washing urinals and toilets, picking up industrial products and waste, arranging things on shelves and for domestic use. Designed by industrial robotics experts, Nipper reachers only require slight compression of the handle to give maximum gripping pressure.

Window Cleaning Solutions

Hydro Clean Cleano

Indoor Ultra Pure Water Cleaning System

This light weight indoor window cleaning system allows you endless possibilities due to it's innovative design and versatility. You can now easily clean those hard to reach spots without the hassle of moving furniture. It's chemical free allowing for an environmentally friendly product and cutting chemical costs. It does not require electricity making it convenient no matter the location.

- Indoor glass, windows and walls
- Glass partitions, show-cases, mirrors
- Elevator walls and doors
- Counters and work benches
- Reduce labor up to 50%
- Work safely from the ground up to 50'
- Environmentally friendly, no chemicals

The Hydro Clean comes in four sizes giving you the versatility to clean almost anything you'll encounter.

HC25

Using our 25' Carbon Fiber Composite Flip Lock Telescopic Pole you can reach up to 30'.

HC Quick Lock

Available as-is or in a kit form for those who already have our Quick Lock Water Fed Poles. They are made of high grade carbon fiber and reach from 5' up to 55'.

Cleano 10

Perfect for those out of reach surfaces. Cleaning up to 15' it's quick and easy to use.

Cleano 5

Small enough for everyday cleaning but still reaching up to 10' this versatile model is the perfect everyday indoor ultra pure water cleaning system.

*Included with purchase is three pads.

Hydro Bottle Kit

The Hydro Bottle Kit is an easy way to get pure water on the fly. The chemical free option for cleaning a variety of surfaces! All it takes is a few minutes and you have pure water to start cleaning with. The Kit comes with 1 Hydro Bottle, 1 DI Resin Bag and an optional TDS Meter.

Applications Include

- Indoor glass windows and walls
- Washable Furniture
- Washable tables and desks
- Counters and work benches
- Washable doors
- Washable walls
- Glass partitions and mirrors
- Elevator walls and doors
- Glass refrigerator doors
- Indoor window sills

Microfiber Cleaning Systems

SLIDE Frame

Aluminum frame with sliding joint

The SLIDE is a revolutionary new frame that has a central joint inserted into a track allowing the handle to slide. This allows the SLIDE to reach even the most difficult areas both on flat and vertical surfaces with ease. Color coded tabs available.

Benefits

- **Effective:** SLIDE ensures a perfect cleaning of all surfaces, even those most difficult to reach
- **Ergonomic:** the frame is made of aluminum, extremely light material and therefore particularly easy to handle. The sliding joint allows the cleaning of points that would otherwise be difficult to reach.
- **Hygienic:** with the velcro system, the mop replacements are attached or removed with a simple push of the foot, without ever requiring the user to touch the mop
- **Convenient:** SLIDE can be used on any horizontal or vertical surface with the same effectiveness
- **Economical:** SLIDE is made with 100% recyclable materials

The joint locks into middle position by means of a stainless steel ball or slides to the right or left with a simple click.

Microfiber Cleaning Systems

High Performance Microfiber

All mops available in 16" combination pocket / flap mop or 18" and 24" Velcro mop.

Loop Microfiber Mop

Designed to extract and hold the highest amount of soil within the large loop structures. It offers high performance cleaning on all surfaces wet or damp. It is also the ideal mop for the pretreat system.

Loop Stripe Microfiber Mop

Combination of loop microfiber (white), and a blend of polyester and cotton (grey) provides the ultimate combination of the absorbency of cotton, washing resistance of polyester and the high soil removal of the looped microfiber. It is ideal for all day cleaning operations on washable surfaces.

Spot Microfiber Mop

Ideal for cleaning grouted and smooth surfaces with its high cleaning power and absorbency. The abrasive embossed "spots" allow a more aggressive cleaning of stains and grouting.

Wall & Table Surfaces

10" soft white microfiber is ideal for cleaning walls, tables, desks, doors, white boards and virtually all washable surfaces. Use damp or wet for washing or dry for dusting.

Glass and Shine Cloth

MICRO GLASS is ideal for cleaning shiny surfaces like windows, mirrors, glass, stainless steel, tile and most glossy surfaces. It's a light, soft and long lasting glass and shine cloth to remove and retain dirt streak free for easy cleaning. It can be used either dry or slightly damp.

Microfiber Cloth - Antibacterial

MICRO SILVER is a microfiber cloth treated with an antimicrobial material based upon silver ion nanotechnology, a method new to the cleaning sector, but has amazing potential. The silver ions have a strong oxidizing power: they destroy bacteria and fungi by oxidizing the cellular membrane and inhibiting the development of pathogens, thus limiting the transfer of bacteria from one area to another. Its antibacterial qualities remain effective, even after 500 washes.
